~ **CRCA 2010 Highlights** – CRCA’s accomplishments all take place with participation at the CRCA Committees. It’s the membership that makes things happen. Here are just a few of the highlights at CRCA from 2010:

- Industry Affairs – This group continues it’s participation at the City of Chicago activities such as the converting the Municipal Building Code of Chicago to the International Family of Codes. The Committee worked with the City’s Center for Green Technology on an initiative to promote garden and green roofs, and much more.
- Steep & Shingle – This Committee has taken the initiative to develop a powerpoint presentation that outlines the IL Roofing Contractor Licensing law, and presented it to building officials in suburban Chicagoland.
- Safety – Working with CRCA Consultant Safety Check, this committee submitted videos to OSHA in Washington DC regarding the process for safe use of roof cutters and heat welding machines at the edge of a low sloped roof as well as Crane Standard Updates at the September CRCA meeting.
- Contracts & Insurance gathered important insurance data via a survey and facilitated the March CRCA Membership Meeting.
- Scholarship – CRCA continues to fund young future leaders as they pursue higher education. Astronaut Dan Tani captured our attention at a great Scholarship Dinner this May.
- Trade Show – CRCA’s Trade Show & Seminars are recognized nationwide as a premier yearly regional roofing industry event, continually gathering roofing and waterproofing professionals around the Midwest, Illinois and Chicagoland.
- Program – The committee continues to come up with blockbuster speakers on topics from public relations to insurance and technical issues.
- Membership – CRCA Membership continues to grow, as a result of the many big things the association does for it’s members and the roofing industry.
