Cyber threats continue to be an everchanging risk affecting organizations across all industries. Cyber is a line of insurance that has been around for decades, yet many businesses still do not fully understand their exposure due to common misconceptions. Cyber Specialist, Cooper Hawes with Evolve MGA will be putting on a cyber educational presentation to explain in non-technical terms how to understand cyber exposures that face roofing contractors and coverages to adequately protect your business. The presentation will break down the basics of cyber insurance, the state of the current cyber market, top cyber claims by reviewing real claims examples, and much more.
